

Transportation System Plan

Newport TSP Update

The City of Newport and the Oregon Department of Transportation are updating the Transportation System Plan (TSP). This is a long range plan that all future transportation improvements in the city are based on.

The plan will guide how we develop and invest in our transportation system to meet the current and future needs of Newport and surrounding areas. It helps determine which projects, policies and programs may receive funding.

Tell us how you would improve transportation in Newport.

WHY UPDATE THE TSP?

Newport's TSP needs to be updated to better reflect the current conditions and growing needs of the community. The City, State and others will make significant investments in the transportation system in the coming years and your input through this planning process will inform how those dollars should be spent.

How can we best serve our community and meet the demands of all types of travel?

How can we improve the ways we all move around Newport?

WHAT WILL THE NEWPORT TSP UPDATE DO?

- Review community, business, visitor and stakeholder input to prioritize future transportation projects and investments.
- Provide a strategic investment plan that enhances safety, access and economic opportunities for the community.
- Align and implement strategies within the Greater Newport Vision 2040 and Northside Urban Renewal Plan.
- With community input, identify strategies to improve mobility through the city center, along US 101 and US 20, and throughout Newport, considering bike and pedestrian needs, connectivity, increased traffic volumes, funding opportunities, street design, development conditions, and user preferences.
