

Front Street Blueprint Project

The City of Coos Bay is seeking community feedback on design concepts for Front Street. **There are two ways you can participate.**

Attend Planning Commission Meeting #2 November 9, 2021 | 6 p.m.

Coos Bay City Hall, 500 Central Ave

Alternative design concepts for the future of Front Street will be presented. Please come and share your thoughts. We want to hear from you!

We will also share project updates. Please submit your comments before the meeting:

Carolyn Johnson

Community Development Administrator

541-269-8924 | cjohnson@coosbay.org

All are welcome. Masks and social distancing are required. (Masks available at City Hall.)

Answer a Short Survey

Oct. 29 – Dec. 12, 2021

Explore the alternative design concepts, learn more about the project and tell us what you think. Find the survey at:

CoosBayFrontStreetBlueprint.org

About the Front Street Blueprint Project

Front Street is a part of downtown with a direct connection to the bay front, with pedestrian, bicycle and vehicle access to the downtown commercial core and visitor amenities, and proximity to Highway 101. Over time the area has changed and grown, but the community's vibrant waterfront Front Street vision remains. The project will build on the community's 2017 Front Street Action Plan work and Coos Bay 2020 Transportation System Plan.

Anticipated improvements will add and improve:

- Bicycle and Pedestrian Safety
- Access and Intersection Improvements
- Wayfinding and Public Art
- Pedestrian Pathways and Overlooks
- Circulation/Connectivity Improvements
- Parking Management
